

## Universal mounting brackets

Universal mounting provides a very flexible way of mount Simco-Ion bars. It makes it possible to quick disconnect the bars from the brackets for maintenance or replacement.

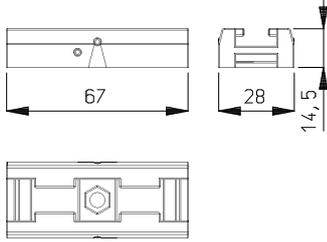

Mounting can be carried out in three ways:

1. Basic mounting: Used when there is very little room available. (no quick disconnect)
2. Quick disconnect
3. Backwards compatible (with quick disconnect): Used to replace old Performax Easy and ThunderION brackets.

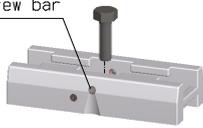

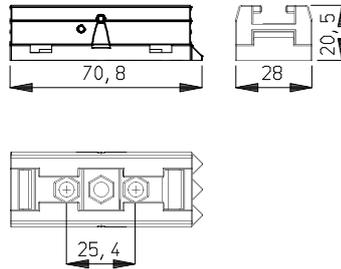

Option 3 (fixed bracket)

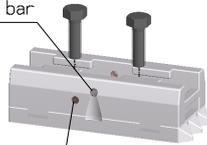

locking screw bar

Option 2 (slide bracket)

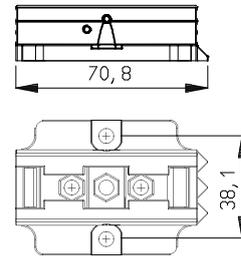

locking screw bar

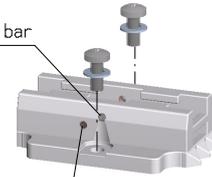

locking screw bracket

Option 1 (slide bracket)

locking screw bar

locking screw bracket
